BACKGROUND

First Harmonization of the Pan-European requirements for the construction of inland navigation vessels

1975

UNECE Recommendations on Technical Requirements for Inland Navigation Vessels (Resolution No.17)

- ✓ continuously updated as per:
UNECE and EU legislation;
River Commissions regulations

1992

Danube Commission's Recommendations on Technical Requirements for Inland Navigation Vessels, based on UNECE Recommendations

- ✓ minimum technical requirements for DC MS vessels (the Danube)
- ✓ with due regard to the prior DC Rec. on certain technical matters

Additions and Amendments: 1999, 2003, 2004

2007

Danube Commission's Recommendations on Technical Requirements for Inland Navigation Vessels

- ✓ with the aim to unify DC Recommendations with the Directive 2006/87/EC and UNECE Resolution No.61 as amended

Additions and Amendments:
2011, 2014-2016

CESNI

2002 - creation of JWG EU/CCNR on harmonization of the Annexes to Directive 82/714 and the Rhine Shipping Regulation, **with participation of the Danube countries and DC experts!**

3/06/2015 - CCNR Resolution on creating and functioning of CESNI
17/06/2015 - inaugural meeting of the CESNI committee

09/2015 - last meeting of JWG – 1st meeting of JWG / CESNI/PT

CESNI Members from DC Member States

7 EU MS

2 non-EU MS
(CESNI observers)

April 2016 – DC WG on Technical matters started discussion on European Standard laying down Technical Requirements for Inland Navigation vessels (ES-TRIN)

October 2017

DC WG on Technical matters:

- 1. unification process of DC Rec., based on ES-TRIN, UNECE Resolution No.61 as amended is not feasible;**
- 2. DC Technical WG remains a platform for further work;**
- 3. DC Secretariat will coordinate proposals of DC MS in the CESNI Committee;**
- 4. relevant Decision to be presented for adoption by the DC session in December 2017.**

13 December 2017 - 89th session of the Danube Commission

BESCHLUSS

der 89. Tagung der Donaukommission in Bezug auf den Europäischen Standard der technischen Vorschriften für Binnenschiffe (*ES-TRIN*)

(angenommen am 13. Dezember 2017)

Nach Erörterung des Tagesordnungspunktes 8 zu technischen Fragen sowie des Teils des Ergebnisberichts über die Sitzung der Arbeitsgruppe für technische Angelegenheiten (17. - 20. Oktober 2017) (Dok. DK/TAG 89/12) zu technischen Fragen,

sowie in Anbetracht dessen, dass der Europäische Ausschuss zur Ausarbeitung von Standards im Bereich der Binnenschifffahrt (*CESNI*) den *ES-TRIN*-Standard angenommen hat,

BESCHLIESST die 89. Tagung der Donaukommission:

- 1. Den Mitgliedstaaten zu empfehlen, an Stelle der „Empfehlungen über die technischen Vorschriften für Binnenschiffe“ der Donaukommission den *ES-TRIN*-Standard anzuwenden.**

**ADMINISTRATIVE
ARRANGEMENT**

**GRANT AGREEMENT
DC/DG MOVE EC
2015**

Pillar 1 - Common elaboration of standards/requirements within an appropriate working platform contributing to the effective maintenance of waterways based on scientific results

Activity 1.3: Activities in the framework of CESNI and River Information Services:

participation in **CESNI WGs meetings**,
creation of a **Correspondence Group** for
CESNI-related activities (DC website),
contribution to **RIS fora**.
