# Aquapol

AQUAPOL was established in 2002 and is fully dedicated to enhancement of safety and security on Europe's main inland waterways as well as in the maritime domain.

AQUAPOL aims at prevention of risks by improvement by enhancement of cross-border law-enforcement cooperation.

# Inspection of the vessel

- › Regular during voyage, review of the current situation
- › Administrative, checking a period in the past
- › Incident as a reason, review of the current situation

# Inspection of the vessel

- › Validity of INVC
- › Technical requirements ES-TRIN
- › Owner, zone and waterways, convoys, equipment, bulkheads maximum passengers etc.
- › Minimal crew (group), exploitation mode
- › Change necessary

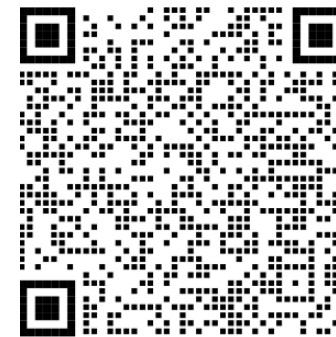

# Format of the New INVC

- › Paper or digital **and** verification
- › Easy verification is the most important requirement!
- › Suggestion: Use of 2d barcode for access EHDB
